

garage doors

# elite

The durable PVC finish means you never have to paint your garage door again. An occasional wipe down with a damp cloth will keep the door in top condition.

## Colours available

- White
- Black
- Light grey
- Dark grey
- Terracotta
- Rosewood
- Light oak
- Dark brown
- Olive green
- Racing green
- Mushroom
- Ocean blue

## Classic design

Roller garage doors are available in a contemporary horizontal rib design.

## Low maintenance and reliability

No cables, no external springs, no ceiling tracks. No greasing or oiling is required; simply wipe clean the guides for easy roller action.

## Space saving

Elite space saving roller doors take up minimal space in your garage. There are no tracks or springs along the ceiling so the garage is more spacious.

## Remote Controlled Convenience

Convenience of automatically opening and closing your garage door from the comfort of your car. No more getting in and out of your car to open or close your garage door. You can avoid the cold or the rain and open and close your door in comfort. Complete with 2 Handsets and Courtesy light.

## Manual Operation (in case of power failure)

The operators have an innovative engage/disengage system. Operated by a pull handle, permitting the drive system to be either engaged or disengaged in one simple action.

## Elite Anti Condensation Doors

Elite are the only roller door manufacturer applying an anti condensation fleece to the rear of their doors.

- Eliminates condensation
- Reduces noise
- A smooth, quieter running door
- Gives a degree of insulation

## Elite Insulated Roller Door

Elite insulated roller doors are made up from double walled aluminium slats enclosing CFC – free foam insulation to reduce heat and sound transmission.

The Elite insulated roller door can turn what was a draughty and cold garage area into a much more usable and pleasant space.

Benefits are improved energy efficiency and heating costs, particularly where the garage is connected to the house.

- Vertically opening roller design maximizes drive-through height while saving space both in the garage and on the driveway.
- Double-walled aluminium construction is extremely strong.
- Insulated curtain and brush draught seal protect against draught and noise.
- Remote control operation deliver the ultimate in convenience.
- Mini transmitter units use state-of-the-art rolling code technology for added security
